

STUDENT COMPUTER AND INTERNET USE REGULATIONS

All students are responsible for their actions and activities involving the School Department computers, network and Internet services, and for their computer files, passwords and accounts. These rules provide general guidance concerning the use of the School Department's computers and examples of prohibited uses. The rules do not attempt to describe every possible prohibited activity by students. Students, parents and school staff who have questions about whether a particular activity is prohibited are encouraged to contact a building administrator or other appropriate administrator. These rules apply to all school computers and all school-provided laptops wherever used, and all uses of school servers, Internet access and networks regardless of how they are accessed.
