

Scarborough Public Schools

Dear Parents and Guardians;

In our efforts to continually review our emergency plan, Scarborough Public Schools Emergency Management Team has recently updated our emergency plan in cooperation with local public officials, administration, and representatives from each school. The goal of this plan is to ensure the safety of all members of the Scarborough Public Schools community, and to preserve the well-being of all.

In our work, we developed a framework of policies, procedures, guidelines, and organization structures that enables each school and our community partners to effectively work together during an emergency or disaster. This collaboration with our police, fire, and other departments is crucial to ensure the safety of our community.

The team has developed this parent guide to provide information of the district's planned actions in response to potential emergencies as a way of preparing families and local officials before an emergency occurs.

This parent guide can be found on our website www.scarboroughschools.org (under the parent information tab), and we hope you have an opportunity to review the information.

Thank you for your time and working with the Scarborough Public Schools to ensure the safety of all.

Sincerely,

A handwritten signature in cursive script that reads "JoAnne Sizemore".

JoAnne Sizemore
Assistant Superintendent
